

RE-NAMED MODELS

We've made some big changes, but don't fret. While the names of some of your favorite sticks have changed, their **performance specs** and **attributes have not**. That said, some models have been retired from the portfolio, and we will help players of those models find another stick that performs to meet their needs. To dig deeper, have a look below to see where your favorite pair fits in the ProMark family.

CLASSIC HICKORY
