

NITA STRAUSS HURRICANE KIT

Hey guys and girls! Nita here to congratulate you on your purchase of the D'Addario Nita Strauss Hurricane Kit!

As a touring guitarist, I have always found it so frustrating when I could never find a specific tool at the moment that I needed it. The only thing more infuriating than a mishap on stage is not having the means to fix it, and fast! So now, whether you're scrambling for a screwdriver, fumbling in the dark without a flashlight, left a pack on and drained the battery, waited too long to change grimy strings, or need to do a full string change, this kit has you covered. I've included the essential tools here that most performing guitarists will need at a moment's notice, as well as a couple more handy items for your arsenal.

NOTE: If at any time you feel uncomfortable performing a task, please refer to a qualified luthier for advice or assistance.

PROWINDER

The all-in-one string changing tool. Functions include:

- String Winder
- String Cutter
- Bridge Pin Puller

MULTI TOOL

The D'Addario Multi-Tool contains the essential tools needed for most of the adjustments to your guitar or bass. The tools included are:

- 3 Fractional hex keys (1/20, 1/8, 3/16)
- 4 Metric hex keys (1.5mm, 2.5mm, 3mm, 4mm)
- Large and small Phillips screwdrivers
- 1 slotted screwdriver

XLR8 STRING LUBRICANT AND CLEANER

D'Addario XLR8 is a fast-and-easy string lubricant and cleaner. XLR8 removes friction for faster playing while at the same time cleans your strings for prolonged life and fresh string tone. Simply take the ergonomic applicator and wipe up and down the strings and that's it. XLR8 will also condition the fretboard as you play to maintain new string tone and feel and experience frictionless playing.
